

**Guru Favorite Stocks ETF**  
Ticker Symbol: GFGF  
Listed on The Nasdaq Stock Market

(the “Fund”)

**Supplement dated May 2, 2022, to the Fund**

**Summary Prospectus dated December 16, 2021 and the  
Prospectus and Statement of Additional Information  
each dated December 14, 2021**

*This supplement should be read in conjunction with your Summary Prospectus, Statutory Prospectus and Statement of Additional Information (“SAI”), be retained for future reference and is in addition to any existing Fund Supplement(s).*

**Change in Name of the Trust**

The Board of Trustees of Alpha Architect ETF Trust, a Delaware statutory trust (the “Trust”) approved a change of the name of the Trust to “EA Series Trust.” Effective immediately, all references to the name of the Trust in each of the Summary Prospectus, Prospectus and SAI are hereby deleted and replaced with the EA Series Trust.

The change of the name of the Trust will not result in any changes in the investment objectives or investment strategies of the Fund.

**New Assistant Treasurer for the Trust**

Effective immediately, Sean Hegarty is added as Assistant Treasurer of the Trust. The section entitled “Management of the Funds—Officers” in the SAI is hereby amended to add the following information about the new officer:

<b>Name and Year of Birth</b>	<b>Position(s) with Trust</b>	<b>Principal Occupation(s)</b>
Sean Hegarty (1993)	Assistant Treasurer (since April 2022)	Chief Operating Officer, Empowered Funds, LLC (2022 - present); Assistant Vice President - Fund Administration, U.S. Bank Global Fund Services (2018 - 2022); Staff Accountant, Cohen & Company (2015 - 2018)

**Updated Transaction Fees**

Effective May 2, 2022, the table located in the “Transaction Fees” section in the Fund’s SAI is hereby deleted and replaced with the following:

<b>Fund</b>	<b>Standard Transaction Fee</b>	<b>Variable Charge</b>
GURU FAVORITE STOCKS ETF	\$300*	Up to 2.00%

\* The Transaction Fee may be higher for transactions outside the Clearing Process. In addition, one half of the Transaction Fee may be waived in conjunction with rebalancing transactions.

---

**GURU FAVORITE STOCKS ETF**  
(GFGF)  
*THE NASDAQ STOCK MARKET*

Before you invest, you may want to review the Prospectus, which contains more information about the Fund and its risks. You can find the Fund's Prospectus, reports to shareholders, and other information about the Fund, including the Fund's Statement of Additional Information, online at [www.GuruFocusETF.com](http://www.GuruFocusETF.com). You can also get this information at no cost by calling 215-882-9983 or by sending an e-mail request to [ir@alphaarchitect.com](mailto:ir@alphaarchitect.com). The current Prospectus and Statement of Additional Information dated December 14, 2021 are incorporated by reference into this Summary Prospectus.

**GURU FAVORITE STOCKS ETF**

**Fund Summary**

---

**INVESTMENT OBJECTIVE**

Guru Favorite Stocks ETF (the "Fund") seeks long-term capital appreciation.

**FEES AND EXPENSES**

This table describes the fees and expenses that you may pay if you buy, hold, and sell shares of the Fund ("Shares"). You may also pay brokerage commissions on the purchase and sale of Shares, which are not reflected in the table and example below.

**ANNUAL FUND OPERATING EXPENSES (EXPENSES THAT YOU PAY EACH YEAR AS A PERCENTAGE OF THE VALUE OF YOUR INVESTMENT)**

Management Fee	0.65%
Distribution and/or Service (12b-1) Fees	0.00%
Other Expenses <sup>1</sup>	<u>0.00%</u>
Total Annual Fund Operating Expenses	0.65%

---

<sup>1</sup> Other Expenses are estimated for the current fiscal year.

**EXAMPLE**

The following example is intended to help you compare the cost of investing in the Fund with the cost of investing in other funds. The example assumes that you invest \$10,000 for the time periods indicated and then redeem all of your Shares at the end of those periods. The example also assumes that the Fund provides a return of 5% a year and that operating expenses remain the same. You may also pay brokerage commissions on the purchase and sale of Shares, which are not reflected in the example. Although your actual costs may be higher or lower, based on these assumptions your costs would be:

<b>One Year:</b>	<b>Three Years:</b>
\$66	\$208

## **PORTFOLIO TURNOVER**

The Fund may pay transaction costs, including commissions when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the example, affect the Fund’s performance. At the date of this Prospectus, the Fund has not yet commenced operations and portfolio turnover data therefore is not available.

## **PRINCIPAL INVESTMENT STRATEGIES**

The Fund is an actively-managed exchange-traded fund (“ETF”). The Fund’s investment strategy is to seek to grow the capital by investing in high quality companies that are favored by prominent long-term investors (“Gurus”) and at reasonable prices.

The Fund’s investment sub-adviser, GuruFocus Investments, LLC (the “Sub-Adviser”) tracks the equity portfolio holdings of approximately twenty Gurus. To be considered a Guru, the investor must have a long-term, publicly available, track record of at least ten years. In addition, the Guru must follow an investment strategy of investing in companies that the Guru considers to be high-quality. The list of Gurus will generally remain consistent absent unusual circumstances – for example, the retirement of a particular Guru.

The Sub-Adviser then generates an initial universe of U.S.-listed securities based on the Gurus’ portfolios. The Sub-Adviser tracks each of the Guru’s portfolio holdings using publicly available information, including information contained in Form 13F filings. The Sub-Adviser then generally eliminates securities of companies with a market capitalization of less than one billion dollars. In addition, the Sub-Adviser excludes any debt securities and derivative instruments from the initial universe. The Sub-Adviser then ranks the remaining equity securities held in Gurus’ portfolios based on the Gurus’ ownership. A security is counted each time it is held in any Guru’s portfolio. For example, if five Gurus hold the securities of a particular company, that company’s securities would receive a rank of 5. The ranking is done without regard to the size of the Gurus’ holdings. For example, if two securities are held by the same number of Gurus, the two securities will have the same rank regardless of whether the Gurus invest more heavily in one of them.

After the Sub-Adviser has ranked the equity securities in the initial universe, the Sub-Adviser then employs a proprietary quantitative methodology to determine the quality and value of each of them. Quality is a measure of the strength of a security’s fundamentals. In contrast, value is a measure of a security’s price relative to the Sub-Adviser’s estimate of the fundamental value of that security.

For the quality determination, the Sub-Adviser analyzes each company using various financial measurements, such as the company’s return on invested capital (ROIC), profit margin, growth, and the predictability of the businesses etc. For the valuation determination, the Sub-Adviser analyzes a different set of financial measurements, which may include an analysis of a company’s price to earnings, price to book value, price to sales, and discounted cash flow. All things being equal, the Sub-Adviser will recommend a high-ranked security over a lower-ranked security. However, the Sub-Adviser may recommend a lower-ranked security over a high-ranked security if, based on the Sub-Adviser’s assessment, the lower-ranked security is of a better quality or value.

The Sub-Adviser will recommend approximately 25-35 equity securities for the Fund’s portfolio. The Fund will generally be fully invested. The Sub-Adviser takes a long-term investment view, and will generally recommend changes to the Fund’s portfolio twice a year, near the beginning of each year, and mid-year.

## **PRINCIPAL RISKS**

An investment in the Fund involves risk, including those described below. *There is no assurance that the Fund will achieve its investment objective.* An investor may lose money by investing in the Fund. An investment in the Fund is not a bank deposit and is not insured or guaranteed by the FDIC or any government agency.

**Investment Risk.** When you sell your Shares of the Fund, they could be worth less than what you paid for them. The Fund could lose money due to short-term market movements and over longer periods during market downturns. Securities may decline in value due to factors affecting securities markets generally or particular asset classes or industries represented in the markets. The value of a security may decline due to general market conditions, economic trends or events that are not specifically related to the issuer of the security or to factors that affect a particular industry or group of industries. During a general downturn in the securities markets, multiple asset classes may be negatively affected. Therefore, you may lose money by investing in the Fund.

**Stale Information Risk.** The Sub-Adviser will recommend securities for the Fund based on publicly available information about the Gurus' holdings. However, the publicly available information does not generally reflect real-time portfolio holdings. For example, information obtained via Form 13F filings are available only quarterly, and will contain information that is at least 45 days' old. As a result, the Sub-Adviser may rank a particular security higher than it would have been ranked if the Sub-Adviser had access to all of the Guru's portfolio holdings on a real-time basis. As a result, the Fund may purchase securities or retain securities that are no longer favored by the Gurus, which may hurt the Fund's performance.

**Equity Investing Risk.** An investment in the Fund involves risks similar to those of investing in any fund holding equity securities, such as market fluctuations, changes in interest rates and perceived trends in stock prices. The values of equity securities could decline generally or could underperform other investments. In addition, securities may decline in value due to factors affecting a specific issuer, market or securities markets generally.

**Quantitative Security Selection Risk.** Data for some companies may be less available and/or less current than data used by other investment advisory firms. The Sub-Adviser uses quantitative analyses, and its processes could be adversely affected if erroneous or outdated data is utilized. In addition, securities selected using a quantitative analysis could perform differently from the financial markets as a whole as a result of the characteristics used in the analysis, the weight placed on each characteristic, and changes in the characteristic's historical trends.

**Management Risk.** The Fund is actively managed and may not meet its investment objective based on the Adviser's or Sub-Adviser's success or failure to implement investment strategies for the Fund.

**Semi-Annual Reallocation Risk.** Because the Sub-Adviser will normally recommend changes to the Fund's portfolio on a semi-annual basis, (i) the Fund's market exposure may be affected by significant market movements promptly following a semi-annual reconstitution that are not predictive of the market's performance for the subsequent semi-annual period and (ii) changes to the Fund's market exposure may lag a significant change in the market's direction (up or down) by as long as a half a year if such changes first take effect promptly following a semi-annual reconstitution. Such lags between market performance and changes to the Fund's exposure may result in significant underperformance relative to the broader equity or fixed income market.

**Large-Capitalization Companies Risk.** Large-capitalization companies may trail the returns of the overall stock market. Large-capitalization stocks tend to go through cycles of doing better - or worse - than the stock market in general. These periods have, in the past, lasted for as long as several years.

**Mid-Capitalization Companies Risk.** Investing in securities of medium-capitalization companies involves greater risk than customarily is associated with investing in larger, more established companies. These companies' securities may be more volatile and less liquid than those of more established companies. Often medium-capitalization companies and the industries in which they focus are still evolving and, as a result, they may be more sensitive to changing market conditions.

**Geopolitical/Natural Disaster Risks.** The Fund's investments are subject to geopolitical and natural disaster risks, such as war, terrorism, trade disputes, political or economic dysfunction within some nations, public health crises and related geopolitical events, as well as environmental disasters, epidemics and/or pandemics, which may add to instability in world economies and volatility in markets. The impact may be short-term or may last for extended periods.

#### **ETF Risks.**

- **Authorized Participants, Market Makers and Liquidity Providers Concentration Risk.** The Fund has a limited number of financial institutions that may act as Authorized Participants ("APs"). In addition, there may be a limited number of market makers and/or liquidity providers in the marketplace. To the extent either of the following events occur, Shares may trade at a material discount to NAV and possibly face delisting: (i) APs exit the business or otherwise become unable to process creation and/or redemption orders and no other APs step forward to perform these services, or (ii) market makers and/or liquidity providers exit the business or significantly reduce their business activities and no other entities step forward to perform their functions.
- **Premium-Discount Risk.** The Shares may trade above or below their net asset value ("NAV"). The market prices of Shares will generally fluctuate in accordance with changes in NAV as well as the relative supply of, and demand for, Shares on The Nasdaq Stock Market (the "Exchange") or other securities exchanges. The trading price of Shares may deviate significantly from NAV during periods of market volatility or limited trading activity in Shares.
- **Cost of Trading Risk.** Investors buying or selling Shares in the secondary market will pay brokerage commissions or other charges imposed by brokers as determined by that broker. Brokerage commissions are often a fixed amount and may be a significant proportional cost for investors seeking to buy or sell relatively small amounts of Shares.
- **Trading Risk.** Although the Shares are listed on the Exchange, there can be no assurance that an active or liquid trading market for them will develop or be maintained. In addition, trading in Shares on the Exchange may be halted. In stressed market conditions, the liquidity of the Fund's Shares may begin to mirror the liquidity of its underlying portfolio holdings, which can be significantly less liquid than the Fund's Shares, potentially causing the market price of the Fund's Shares to deviate from its NAV.

**New Sub-Adviser Risk.** The Sub-Adviser the Sub-Adviser has no experience with managing an exchange-traded fund, which may limit the Sub-Adviser's effectiveness. Further, the Sub-Adviser has no experience managing accounts or pooled vehicles. In addition, although the Sub-Adviser has retained third-party vendors (e.g., compliance services, operations, etc.), the Sub-Adviser currently employs a single individual and has limited resources, which may prevent it from being able to continue to provide sub-advisory services if the principal becomes incapacitated. Over time, the Sub-Adviser will augment its resources as market conditions permit. In addition, the Sub-Adviser regularly evaluates its business continuity plan with the Adviser to ensure continuity of operations and portfolio management should a disruption to operations occur.

**New Fund Risk.** The Fund is a recently organized, diversified management investment company with limited operating history. As a result, prospective investors have a limited track record or history on which to base their investment decision. There can be no assurance that the Fund will grow to or maintain an economically viable size.

#### **PERFORMANCE**

The Fund has not commenced operations as of the date of this Prospectus. Performance information will be available in the Prospectus after the Fund has been in operation for one full calendar year. When provided, the information will provide some indication of the risks of investing in the Fund by showing how the Fund's average annual returns compare with a broad measure of market performance. Past performance does not necessarily indicate how the Fund will perform in the future. Updated performance information will be available at [www.GuruFocusETF.com](http://www.GuruFocusETF.com).

**INVESTMENT ADVISER & INVESTMENT SUB-ADVISER**

Investment Adviser: Empowered Funds, LLC (“Adviser”)  
Investment Sub-Adviser: GuruFocus Investments, LLC (“Sub-Adviser”)

**PORTFOLIO MANAGERS**

Cechan Tian, Ph.D., founder and chief executive officer of the Sub-Adviser, has been jointly and primarily responsible for the day-to-day management of the Fund since 2021.

Dr. Tian provides his recommendations to Messrs. Brandon Koepke and Richard Shaner, Portfolio Managers of the Adviser, who, since 2021, are also jointly and primarily responsible for the day-to-day management of the Fund.

**SUMMARY INFORMATION ABOUT PURCHASES, SALES, TAXES, AND FINANCIAL INTERMEDIARY COMPENSATION****PURCHASE AND SALE OF FUND SHARES**

The Fund issues and redeems Shares on a continuous basis only in large blocks of Shares, typically 10,000 Shares, called “Creation Units,” and only APs (typically, broker-dealers) may purchase or redeem Creation Units. Creation Units generally are issued and redeemed ‘in-kind’ for securities and partially in cash. Individual Shares may only be purchased and sold in secondary market transactions through brokers. Once created, individual Shares generally trade in the secondary market at market prices that change throughout the day. Market prices of Shares may be greater or less than their NAV. **Except when aggregated in Creation Units, the Fund’s shares are not redeemable securities.**

**TAX INFORMATION**

The Fund’s distributions generally are taxable to you as ordinary income, capital gain, or some combination of both, unless your investment is in an Individual Retirement Account (“IRA”) or other tax-advantaged account. However, subsequent withdrawals from such a tax-advantaged account may be subject to federal income tax. You should consult your tax advisor about your specific tax situation.

**PURCHASES THROUGH BROKER-DEALERS AND OTHER FINANCIAL INTERMEDIARIES**

If you purchase Shares through a broker-dealer or other financial intermediary, the Fund and its related companies may pay the intermediary for the sale of Shares and related services. These payments may create a conflict of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend Shares over another investment. Ask your salesperson or visit your financial intermediary’s website for more information.
